MASS MEETING FOR SCHOOL DIRECTORS

AT THE COURT HOUSE TOMORROW EVENING AT 7:30 O'CLOCK.

FOUR TO BE NOMINATED

No Opposition So Far to L. C. Cook, M. A. Peery, Dr. Jesse Miller and R. P. Hosmer.

A mass meeting to nominate four members of the school board will be held at the court room in the court house tomorrow evening at 7:30 o'clock. The terms of the four members expiring are L. C. Cook, Dr. Jesse Miller, R. P. Hosmer and M. A. Peery.

It is thought there will be no opposition to the renomination of these four men. So far as known there are no candidates for these places.

The Democrat-Forum believes these men ought to be re-elected. One reason is that during the next few months the addition to the Central School building will be built. The contract has been let for the addition. The present members of the board are thoroughly familiar with the plans and are in a better position to go ahead with the completion of the building.

Two of the members to be nominated will be for the short term of one year, while the other two members will be for a term of three years.

IRISH DESTRUCTION LAID TO BRITISH

FINDINGS OF THE AMERICAN COMMISSION ON CONDITIONS

REPORT ISSUED TODAY

Declare Irish Are Deprived of Protection of British Laws—Charge Indiscriminate Killing

New York, March 31.—The findings of the American Commission on Conditions in Ireland as contained in the interim report issued to-day, after detailing the history of the committee's investigations, sets forth in conclusion as follows:

We find that the Irish people are deprived of the protection of British law, to which they would be entitled as belligerents. They are at the mercy of Imperial British forces which, acting contrary both to all law and all standards of human conduct, have constituted in Ireland a "terror," the evidence regarding which seems to prove that:

1. The Imperial British Government has created and introduced into Ireland a force of at least 78,000 men, many of them youthful and inexperienced, and some of them convicts, and has incited that force to unbridled violence.

2. The Imperial British forces in Ireland have indiscriminately killed innocent men, women and children; have discriminately assassinated persons suspected of being Republicans; have tortured and shot prisoners while in custody, adopting the subtleties of "refusal to halt" and "attempting to escape," and have attributed to alleged "Sinn Fein Extremists" the British assassination of prominent Irish Republicans.

3. House burning and wanton destruction of villages and cities by Imperial British forces under Imperial British officers have been countenanced, and ordered by officials of the British Government, and elaborate provision by gasoline sprays and bombs has been made in a number of instances for systematic incendiarism as part of a plan of terrorism.

4. A campaign for the destruction of the means of existence of the Irish people has been conducted by the burning of factories, creameries, crops and farm implements and the shooting of farm animals. This campaign is carried on regardless of the political views of their owners, and results in wide-spread and acute suffering among women and children.

5. Acting under a series of proclamations issued by the competent military authorities of the Imperial British forces exposed to the fire of the Republican army; fines are levied upon towns and villages as punishment for alleged offences of individuals; private property is destroyed in reprisals for acts with which the owners have no connection, and the civilian population is subjected to an inquisition upon the theory that individuals are in possession of information valuable to the military forces of Great Britain. These acts of the Imperial British forces are contrary to the laws of peace or war among modern civilized nations.

6. This "terror" has failed to re-establish Imperial British civil government in Ireland. Throughout the greater part of Ireland, British courts have ceased to function; local, county and city governments refuse to recognize British authority, and British civil officials fulfill no function of service to the Irish people.

7. In spite of the British "terror" the majority of the Irish people have sanctioned by ballot the Irish Republic.

SELECTING NAMES FOR MISSOURI COUNTIES

Most of Them Named for Prominent Men—Some, Like State, Given Indian Names.

Co-incident with the celebration of the 100th anniversary this year of the admission of Missouri as a state of the Union, items of historical interest concerning the state are of added value and interest to Missourians. The history of the state can in part be traced through the place names applied to it as the state developed. Chief of these, of course, is the word "Missouri" which has been applied to the great river that crosses the state as well as to the state itself.

The first recorded names were to some stream or topographical feature. These were followed by names bestowed by French traders and trappers, known in those days as "voyagers." They left many picturesque names when they were followed by the Spanish and later by Americans mixed with foreign elements of Irish and Germans.

Muddy Water.

"Missouri" has generally been accepted as an Indian name meaning "muddy water." Authorities on early Missouri history differ as to the exact derivation of the word. The fact that the "muddy water" translation appears plausible because the great river that traverses the state is exceptionally turbid while the Mississippi into which it empties is clear, has given weight to that explanation. Still, some authorities contend the word is an Indian tribal name and others that it is a French corruption. Early maps of the territory vary as to the spelling and are confusing because of that.

Joliet's map spelled it "Mess-8-ri." In old French manuscripts "8" was used to mean "oo" or "ou" which would make the spelling "Messouri." Marquette's map, published in 1661, spells the name "8-miss-8-ri," or "Oumissouri." The characteristics of this word lead some to the belief that the origin of it was with the Illinois Indians.

County Names.

The "muddy water" explanation is contained in a history by Long in which he quotes Featherstonhaugh as saying the Dakota Indians named the river "Minnay Shoshohchray," which literally translated means "water muddy bill." The explanation goes on to point out that a contraction of these words would have been possible by dropping the last four letters of each of the first two words and by dropping the first three letters of the last.

word giving "Minshoray."

Because the legislature of the state tried to honor prominent personages of the country when naming the 114 counties, most of them bear proper names. Of the 114, 99 have personal names, four have Indian names and the remaining nine have names derived from geographical features. The Indian names are Nodaway, Pettibone, Oregon and Moniteau. The nine geographical names are Iron, Gasconade, Cedar, Chariton, Mississippi, Ozark, Osage, Platte and Saline.

Adair and Andrew

Adair county—named for General John Adair of Mercer county, Kentucky. This county was organized January 29, 1841. General Adair, who once served as governor of Kentucky, had died in 1840, and it was in honor of his memory that the legislature voted to bestow his name on the county that is situated in the northeast section of the state near the Iowa line.

Kirkville, the county seat, was laid out in the year the county was organized. The town was named after a farmer who lived near the proposed site. According to tradition, the wife of Jesse Kirk was cooking a turkey when the survivors appeared and they accepted an offer of a turkey dinner and a "good supply of whisky" if they would name the town Kirkville.

Andrew county—named for Andrew Jackson Davis, once a prominent citizen of St. Louis county and later a citizen of Savannah. The county was organized in 1841. Savannah, the county seat, was laid out the same year but the origin of the name is obscured.

Principal towns in the county and the year they were organized are: Amazonia, 1857; Bolckow, 1868; Fillmore, 1845; Helena, 1878; Nodaway, Rochester, 1848; Rosendale, 1869; and Whitesville, 1848.

Atchinson and Audrain

Atchinson County—Named in honor of David R. Atchinson, U. S. Senator from Missouri from 1843 to 1855 and who died in Clinton, Mo., January 26, 1856. Senator Atchinson was acting president of the United States for one day. That was when President Polk's term expired on Saturday, March 3, 1849, and President Tyler was not inaugurated until the following Monday. Senator Atchinson was president of the U. S. Senate at that time and was the president for a day.

The original seat of justice was at Linden but Rockport was designated county seat in 1851 and the records were removed there and Linden ceased to exist. Rockport derives its name from Rock Creek on the banks of which it is located.

Audrain County—Named for James S. Audrain who was a representative from St. Charles County in the Missouri Legislature in 1830 and who died in St. Charles in 1831 while a member of the Legislature. The county was organized December 17, 1836.

Mexico, the county seat was laid out in 1836 and was named for the country to the south of the United States, chiefly because the growing controversy between Mexico and the United States over the independence of Texas was at that time a chief topic of discussion. The word Mexico is derived from the Maguy plant which supplies to the people of that country so many of the necessities of life.

The Grind on The Tires

OF A RACING CAR IS TERRIFIC.

At a speed of a hundred miles an hour the cars are driven over tracks and around sharp curves until the tracks themselves are almost torn to pieces.

Tires that can stand that are GOOD tires.

WOMAN SAVES FUR COAT FROM AUTO BANDIT

Took Her Diamond Rings, Money, But
Smilingly Agrees to Let Her
Keep Wrap.

Chicago, March 31.—It pays to josh hold-up men, according to Mrs. Emma Lunde, wealthy North Side resident. Mrs. Lunde ought to know, for her line of chatter saved a \$2,000 fur coat during a recent hold-up by three auto bandits. The bandit car drew up to Mrs. Lunde's machine just as she and her mother reached home from the theatre. One of the men covered the chauffeur, another took the arm of Mrs. Emma Lunde and the third pressed a gun against Mrs. Suzanne Lunde.

Keeps Her Nerve.

"Take that thing away," said Mrs. Lunde. "Don't make a bit of noise—that ring of yours—take it off quick," ordered one of the bandits. "All right—here's my pocketbook, too."

While Mrs. Lunde was removing the ring the robber examined the pocketbook and took \$3. "Boys! that some ring," said Mrs. Lunde. "It's worth \$5,000." "Atta boy!" said the bandit. "Now peel off that coat!"

Joshes Him Out of It.

"Why, you wouldn't take that," she smilingly pleaded. "I'd freeze to death this summer. Boys, it's the only coat I have."

"All right—and you needn't mind the wedding ring. Come on partner." The third man who had taken \$5.00 from the chauffeur, jumped into the driver's seat and the three disappeared.

The Hopkins Journal had the following about Roy F. Hanna, cashier of the First National Bank:

The new cashier is a Hopkins boy, being a son of Mr. and Mrs. Wm. Hanna, and his wife is a Hopkins girl, being a daughter of Mrs. Josephine Sobbing. His advancement is good news to the host of friends of the couple in

this vicinity. Roy has been assistant cashier of the bank the last year and before going to Maryville was president of the Clearmont bank and has had an experience of ten years in the banking business, being well fitted to take the responsible position which has just been given him. He has a wide acquaintance over the country, is a young man who makes and retains friends and the directors of the institution he represents will never have cause to regret their action in electing him cashier.

The First Newspaper in Nodaway County

Was established before the Civil War by E. H. Snow. During the early stages of the war the plant was destroyed by bushwhackers and the editor driven from the state.

The next paper in Maryville was the Gazette, established in 1866 by Governor Morehouse.

Several papers have been started and most of them have grown or consolidated until there are now eight weekly and two daily papers in the county.

The newspapers have been a great force in the upbuilding of the county, and the wonderful advances that have been made in printing methods are a great aid to modern business in many ways.

Which Battery?

You won't be satisfied with a car unless you are satisfied with the battery.

The Willard Threaded Rubber Battery not only gives the right service to begin with, but keeps on giving it, and actually outlasts the battery plates.

The plates are insulated—not merely separated. And the Threaded Rubber Insulation neither warps, cracks, nor punctures, because unlike wood separators, it is not affected by battery acid.

Drive around. Ask questions. We give authorized Willard Service.

TAILOR EXPLAINS BUTTONS ON MEN'S COAT SLEEVES

Were First Used to Hold Back Long Cuffs Men Wore—In Time When Kings Held Court.

Kansas City, Kan., March 30.—Why the buttons on men's coat sleeves? A tailor here explains it this way.

"Buttons on coat sleeves are strangely linked with the improvement in man's personal hygiene. Years ago as you'll remember, men trotted around all dolled up in silk pants and fluffy waists that would make women's styles of this day and age look mossbacked.

"On each man's sleeve was a long lace cuff that flopped about in much the same fashion as the flapper's unbuckled galoshes do now on a rainy day. Obviously such cuffs often interfered with the courtier's salaams, and so some court tailors had the happy idea of putting buttons on the sleeves to button the cuffs back when said brummel "took off his coat" so to speak.

"Another version is that the soldiers of a certain old king in England were furnished with new uniforms with beautiful lace cuffs and were the pride of their monarch's heart until one day he caught a sentry using the cuff as a handkerchief. He immediately issued orders to have metal buttons put on the cuffs so that forgetful warriors would scratch their noses if they attempted such a manoeuvre.

"In time the lace cuffs went out of style, but they forgot to take the buttons off and so they remain today as useless as the popular notion of uselessness of the vermiform appendix."

New Butterfat Record.

Wooster, March 31.—A Holstein Junior three-year-old cow, Catherine Beauty Pontiac II., owned by W. S. Oldman, of Wooster, has made an official record of 22.25 pounds of butter and 565.4 pounds of milk in seven days and 1,025 pounds of milk in fourteen days. She gave 79 pounds of milk in one day.

A Rat That Didn't Smell After Being Dead for Three Months.

DON'T RISK NEGLECT.

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's Disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. A Maryville case.

Mrs. Hulda E. Blachley, 303 West 4th St., says: "Doan's Kidney Pills are without a doubt the finest kidney and bladder remedy of today. Several years ago I was in a bad condition due to sharp twinging pains which caught me in the small of my back. My back pained and became very lame and sore. Dizzy spells also came over me and floating specks would appear before my eyes. I felt very weak and miserable. A friend who had heard of my trouble advised me to try Doan's Kidney Pills and I purchased a box from the Rexall Drug Store. The first box of Doan's brought me such great relief that I continued using them and after I had used three boxes I was completely cured. I highly recommend Doan's to anyone with kidney complaint."

AMERICAN PUBLISHER RECEIVED BY PREMIER

Auckland, New Zealand, March 29.—W. D. Boyce, Chicago publisher, who stopped here recently on his trip around the world, was received by the Right Hon. W. P. Massey, Prime Minister of New Zealand and a member of the Peace Conference at Paris.

The Premier compared the democracy of New Zealand with that of the United States and said:

"Free voice, free aid, free counsel. A free throne by free men circled, each representing each. A realm self-centered, yet with arms to reach where earth's oppressed ones groan."

CAN SPOON ATOP BUSES IN DETROIT

Detroit, March 29.—It's all right to spoon atop the Detroit motor buses, providing you don't disturb the other bus riders. Dr. James W. Inches, police commissioner, has issued this edict to all police officers, thus proving that he is broader than his name implies.

"They spoon in cafes, restaurants and shows," he said, "and to attempt to stop it would be useless."

So the bus kiss and the bus hug will be popular in Detroit this Summer, and it can be surmised that upper deck seats will be at a premium.

Newburgh, N. Y.—"My trouble was a weak back and I could not walk two blocks without being tired out. I read of Lydia E. Pinkham's Vegetable Compound in a newspaper and decided to give it a trial. Now I can do my own work and walk with ease. I always keep the Vegetable Compound in the house. It certainly is my best friend and I could not keep house without it. I have recommended it to many and always shall. You may use this letter if you wish."—Mrs. EDWARD PITTS, 2 High St., Newburgh, N. Y.

It has been said that "backache is an invention of the Evil One to try women's souls," but even so, it is more often a symptom of a female trouble which sooner or later declares itself. Day after day it drags a woman down and night after night prevents restful sleep. Such woman should follow Mrs. Pitt's advice and try Lydia E. Pinkham's Vegetable Compound, and regain health.

Letters about your health will be given careful attention and held in strict confidence if you write to Lydia E. Pinkham Medicine Co., Lynn, Mass. Their experience of over 40 years is at your service.

200 PARSONS HEAR M'Caffrey ADDRESS AT CHURCH

Tells First Methodist Folk How They Can Help in Enforcing Laws of State
Two hundred people who attended the church night service at the First Methodist church last night, heard the address given by Charles F. M'Caffrey, prosecuting attorney of Nodaway County, when he spoke on "How the People of the Church and Community May Best Cooperate with the Officers of the Law in Law Enforcement and Community Uplift."

The monthly indoor picnic was held and those present enjoyed the cafeteria dinner which took place before the devotion led by Dr. O. I. Curl, pastor of the church, and the address by Mr. M'Caffrey. In his speech Mr. M'Caffrey emphasized the fact that many people are ready to criticize the county officers if certain laws are violated and the guilty persons not punished, but on the other hand these same people refuse to take any step to bring the violators to law. For instance, in a neighboring town a case of gambling became known, but the persons who knew the facts would do nothing to punish the offenders and consequently the prosecuting attorney was powerless to act on account of lack of evidence. The same is true in many other cases, he said. The county officers are often blocked in prosecuting suspected offenders because people in business allege it would hurt their trade if they took sides in a case at law.

Dr. O. I. Curl, pastor of the church is planning to have other speakers of the community to address the congregation at the indoor picnic each month. Subjects dealing with the improvement of the vicinity will be discussed at these meetings. The purpose of these talks will be to inform the individuals of conditions vital in making him a better citizen.

NOT RIGHT TO YANK WIFE OUT OF BED BY HAIR

Decision Was Randed Down When Mrs. Margaret Leslie Applied For Divorce.

Kansas City, Mo., March 30.—A husband does not have the right to yank his wife out of bed by the hair even if he "comes from Missouri."

This decision was randed down by District Judge W. H. McCamish when Mrs. Margaret Leslie, twenty years old, brought suit for divorce from her husband, Marcellus Leslie.

Mrs. Leslie testifies she thought her husband didn't have the right to pull her out of bed by the hair. Mrs. Charles Curry, sister of Leslie and witness for the defense, said she thought circumstances might warrant it. Leslie said he thought it was all right if his wife provoked him to it. Judge McCamish decided in favor of the wife.

Vida, from the Erse language, is the feminine of David, and as such has the significance of "well beloved."

Leading food experts give interesting information to every mother in America

LEADING food experts of America have stated why Karo is one of the greatest of all energy-producing foods.

The reason for this is easy to explain. Karo is composed of a very large percentage of Dextrose.

Dextrose is one of the most important of all food items. You could not live long without Dextrose.

Most of the foods you eat—such as bread, starchy vegetables, and all forms of sugar—have to be changed into Dextrose before your system can use them as energy foods.

So Karo may almost be said to be a predigested food. There are scientific facts, supported by the very highest medical and food authorities, and undoubtedly, is one reason for the tremendous nationwide popularity of Karo.

Give your children and the folks all the Karo they want.

Your Protection

Do not be deceived by cans containing syrup that might look like Karo. The name "Karo" is on every can of original Karo—look for it, and be assured of full weight and highest quality.

RED Karo

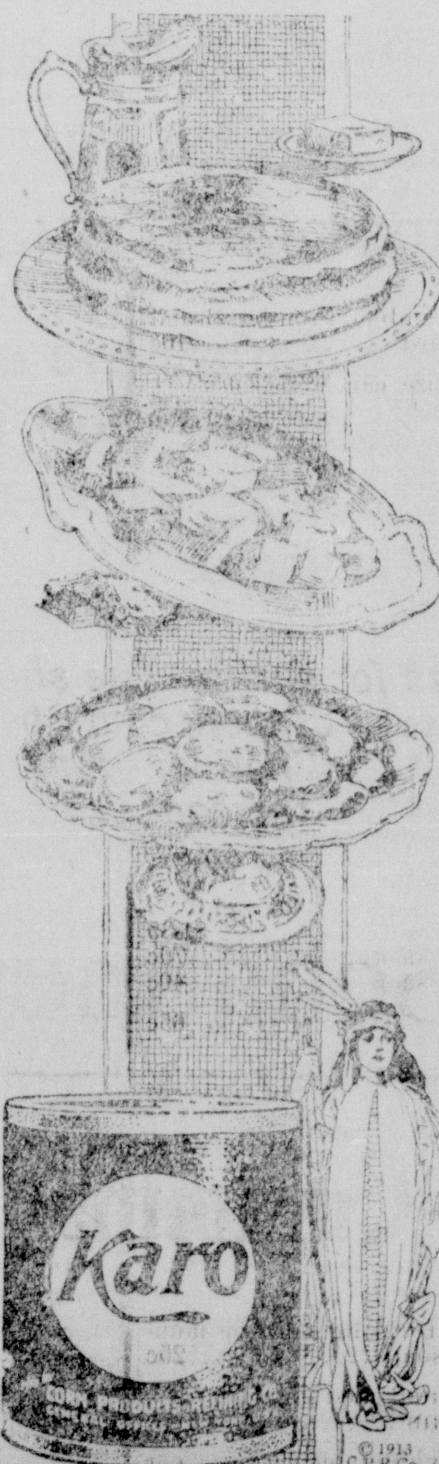

The standard table syrup. Also for cooking, baking, candy making. Light brown color, delicious flavor—a heavy-bodied syrup.

GREEN Karo

Flavored with highest grade real maple sugar. Very moderate in price—absolutely pure. The makers of Karo are the world's largest users of the highest grade maple sugar—over a thousand tons used annually.

UNCLE PETER IN "THE SPENDERS" BRINGS MANY CHUCKLES

Makes His Fortune Pioneering In West—Veterans Show Will be Repeated Tonight

Uncle Peter in the "Spenders" brought more than one chuckle last night from those at the Empire Theatre. Uncle Peter makes his fortune in the West in mining. He is a pioneer of the best type. His son is a builder and builds a fortune on Wall Street while Percival of the third generation spends it on Broadway. Percival loses the family fortune in a venture and goes back to shirt-sleeves to retrieve his loss.

Uncle Peter goes East and takes a hand in affairs and eventually all ends well with every one happily married. An English Lord, who is a suitor for the hand of Psyche, Peter's sister isn't so bad. Notwithstanding his seeking a fortune he offers his hand and what is left of his fortune to Psyche when he learns of the distress of the family. He goes West with the others to become "a cow burster" on the western plains.

A humorous 2 reel film precedes "The Spenders." Tom L. Taylor, who served through the World War, plays several parts, which were popular with the British troops and cracks some of the trench jokes. The show will be repeated tonight at the Empire.

It is under the auspices of the Seth Ray David Post, Veterans of Foreign Wars. The lower floor and the balcony were well filled for both shows.
